INDEX-1951

THE PROFESSIONAL PHOTOGRAPHER

519 Caxton Bldg., Cleveland 15, Ohio

(The numbers following each item indicate its location by issue and page; the digit or digits before the hyphen referring to the month and those after the hyphen being the page number. Thus 2-87 refers to page 87 in the February issue, 10-54 to page 54 in the October issue, and so on. For further simplification the Index has been broken down by departments and classifications of editorial material. The Index may be readily removed for binding by opening the metal stitches, pulling out the pages, and bending back the stitches. If the publishers' recommended binder is used the Index may then be inserted in the binder directly following the December issue.)
